

Congratulations on your new home! Your home comes standard with (7) 400-Watt solar panels for a total system size of 2.8kW. The system is estimated to produce 4,500 kWh in year one. For full-time homeowners or those with EVs, we have two standard upgrades to choose from.

- **Solar Upgrade Option 1 - Add (7) panels - \$12,000**
- **Solar Upgrade Option 2 - Add (14) Panels - \$22,000**
- **Tesla Powerwall 2 - \$21,500**
